## SAFETY ALERT

It has come to attention from other schools that Primary age students are using an application called 'Discord'. This particular application is used primarily for gaming but has a 'chat room' element included. This application is regarded by police as an unsafe environment for students as there are overseas connections and 'bots' included which generate responses that can be of an inappropriate nature. I highly recommend to parents to check if your child is using this application and to check the content. If you are interested in further information some helpful resources can be found on the eSafety Commissioner's website: <https://www.esafety.gov.au/>
